Electrical Industr Health & Safety	Minimum Prerec	quisite Unit Standards			
		loads and communicate during crane operations			
Planning and Pr	reparation				
I conducted an inspection of the lifting equipment to be used prior to the lift and deemed it fit for purpose					
I conducted a risk assessment prior to the lift to ensure all specific and potential hazards were eliminated or minimised					
I calculated the weights of the load to be lifted using recognised methods					
I confirmed the lift plan with all of the people involved with the lift ensuring it was in line with industry best practice and company procedures					
During the Lift					
I controlled the load during the lift in line with industry best practice and company procedures					
I communicated appropriately during the lift ensuring any risks were minimised					
Post Lift Actions	S				
I returned all lift	ting gear to its correct storage lo	ocation			
Statem	ent of Endors	amont			
Statem	ient of Lilaois	sille iit			
Worker	Name	Signature	Date		
A signature by t	he worker indicates they have u	ndertaken the corresponding actions as indicated by ticks	in the 'Worker' column		
Assessor	Name	Signature	Date		
A signature by t	he Assessor indicates their verifi	cation of the Worker actions by ticks in the 'Assessor' colu	ımn		

Note: The Assessor must be 'Work Capable' for this specific Competency and takes responsibility for determining if the Worker is 'Work Capable'

Evidence supporting this assessment should be attached and may include: work control documents, permits, photos, videos, drawings etc ...
